PROFESSIONAL SUMMARY

Senior AI Engineer with 4+ years of experience building production AI systems for enterprise automation and computer vision. At MiSUMi APAC, I architect an agentic platform that connects AI agents, enterprise knowledge, business tools, and human approvals on AWS, targeting up to an 80% reduction in operational cost. Previously delivered 4x faster retail shelf audits with a production vision system covering 750+ SKUs.

PROFESSIONAL EXPERIENCE

Senior AI Engineer

Jan 2026 - Present

MiSUMi (Thailand) Co., Ltd. - Bangkok, Thailand

- Architect an enterprise agentic AI platform on AWS for customer-service and back-office automation across MiSUMi APAC, targeting up to an 80% operational-cost reduction.
- Design multi-agent workflows with intelligent routing, tool calling, conversation memory, and human approval gates for high-impact actions.
- Build grounded enterprise retrieval and secure tool integrations for orders, shipments, documents, email, and Teams workflows using RAG and MCP.
- Establish evaluation, observability, and reliability practices with Golden Datasets, tracing, authorization guardrails, idempotency, and controlled model promotion.

AI Engineer

Oct 2024 - Dec 2025

MiSUMi (Thailand) Co., Ltd. - Bangkok, Thailand

- Deployed customer-service agents that automated inquiry classification, knowledge retrieval, and routing across operational teams.
- Built LLM analytics and a Sales Recovery Agent to resolve ambiguous transaction data and improve follow-up decisions.
- Created the supporting data and automation foundation with Airflow, dbt, Docker, and Power Automate.

Data Scientist

Jul 2022 - Oct 2024

TSPACE Digital Company - Bangkok, Thailand

- Deployed a retail-recognition ensemble achieving 90% accuracy across 750+ SKU classes.
- Reduced shelf-audit time from 45 to 15 minutes per store, a 4x capacity improvement without additional headcount.
- Owned the production pipeline from similarity search and image post-processing through APIs, deployment, monitoring, and BI integration.

EDUCATION

M.Eng. in Robotics & Computational Intelligence Systems

2024 - 2026

King Mongkut's Institute of Technology Ladkrabang (KMITL) - Bangkok, Thailand

B.Eng. in Mechatronics and Robotics Engineering

2020 - 2022

Rajamangala University of Technology Tawan-Ok - Thailand

TECHNICAL SKILLS

Programming & Backend: Python, SQL, C++, FastAPI, Flask

Agentic AI: LangGraph, LangChain, MCP, RAG, tool calling, human-in-the-loop workflows

Cloud, Data & Integration: AWS, Amazon Bedrock, EKS/Kubernetes, PostgreSQL, Redis, Airflow, dbt, Microsoft Graph API

AI Operations: Langfuse, OpenTelemetry, Prometheus, Grafana, Docker, model and agent evaluation

Computer Vision: PyTorch, YOLO, Vision Transformers, OpenCV, FAISS

Languages & Certifications: Thai (Native), English (Professional Working Proficiency); Agentic AI - DeepLearning.AI (2025); Deep Learning Specialization - Coursera (2023)
